

Spirit Vertical Leg Press

SKU: SPE-PL-3135

- ✓ Designed & manufactured in our UK factory
- ✓ Conforms with ISO/CEN equipment standards
- ✓ Commercial use structural lifetime warranty

The Spirit Plate Loaded Vertical Leg Press is manufactured in the UK and expertly engineered to deliver exceptional lower-body development while minimising spinal stress. Designed to target the quads, glutes, and hamstrings with an increased range of motion, this machine combines biomechanical precision with uncompromising strength and durability.

Four loading points offer a massive 1040kg weight capacity, and a large anti-slip foot platform as well as support handles ensure maximum stability and control during heavy lifts. Premium 40mm linear bearings deliver ultra-smooth motion, while lock and release handles and an adjustable 5-position stop system provide secure operation and safety.

Complete with an assistance handle for easy entry and exit, band pegs for reverse banding, and four included storage horns to keep weight plates readily available.

Compact yet powerful, the Spirit Vertical Leg Press offers all the benefits of a traditional leg press within an impressive space-saving solution perfect for high performance strength training.

Features

Four Loading Points

Equipped with 4 stainless steel loading points to support a huge maximum load of 1040kg for elite level performance.

Premium Bearings

Equipped with premium 40mm linear bearings to guarantee ultra-smooth and consistent movement under heavy loads.

Assistance Handle

Complete with an assistance handle located on the platform to make entry and exit safe and effortless.

Maximum Stability

A large platform with anti-slip footplates and support handles provide maximum stability throughout the movement.

Adjustable Stop

Equipped with an adjustable stop with 5 settings to ensure safe operation.

Integrated Storage

Includes 4 extra-large storage horns, providing ample space to keep weight plates easily accessible and organised.

Lock and Release

Lock and release handles allow for effortless transitions to ensure secure operation and safety.

Reverse Banding

Supports reverse banding to reduce the starting weight and assist the lift.

Made in Britain

Made in Great Britain for superior build quality. Key components are made from stainless steel for long-term durability.
